

If you can't get to us for help with your sight loss, then we can bring it to you!

Introducing NAB's Community Team

We understand that losing your sight can be hard to cope with. It can knock your confidence, make everyday tasks more difficult and even undermine your independence. But it doesn't have to!

With just a little 'know how' and helpful equipment life with sight loss can be less worrying and so much easier. A friendly visit from one of our local community workers can give you all the information and support you need.

So if you are struggling to read or watch tv, see your cooker dials or use the telephone, get out and about or simply needing a bit of guidance and a chance to talk things through. Don't hesitate.....give us a call.
